Label Sampler #5 - november 2006

It's been almost a year since we last released a label sampler. Last year double CD compilation has been way too much work to handle. From now on, we'll stick to the 'classic' one disc format, but we'll try to make more of those. We have so many artists and tracks we want you to listen to. Expect our next sampler by January '07.

We gathered 18 artists or bands on this November release. New features include ROCK PLAZA CENTRAL (Toronto, Canada), ALONE IN 1982 (Toulouse, France), THE KEYS (Toulouse, France / Montreal, Canada), THE URCHINS (Paris, France), MAISON NEUVE (Paris, France), LISPECTOR (Paris, France), SILENCE KIT (Moscow, Russia), KID FRANCESCOI (Marseille, France), THE SOFT EXPLOSIONS (New York City, USA).

Most of this artists' records are available from our mail-order.

Love,

The Dead Bees bunch
